The Cold War: Solving the Mystery of History with Voices on Vinyl

Grade Level: Eighth grade
Presented by: Karen Sonnanstine and Jenni Jones, Three Oaks Middle School, Fort Myers, Florida
Length of Unit: Twelve to Sixteen Days (4 lessons)

I. ABSTRACT
Allow the voices of the past to “speak” in your next unit. Invite your students to hear the “people’s” spin on the times as they navigate through the noteworthy events of the Cold War through music. Examining the highlights, crises, and showdowns between the United States and the Soviet Union during the tumultuous years of the Cold War can be made more meaningful by listening to popular music of the time.

In Sting’s “Russians” he says, “Russians are people, too.” Billy Joel’s “Leningrad” compares his life, an American child growing up in Levittown, to the life of Viktor, born in Leningrad, growing up in the Soviet Union. They meet during Billy Joel’s tour of the Soviet Union in 1989. The tensions of the Vietnam War become more understandable through Billy Joel’s “Goodnight Saigon,” a moving account of a young man’s disappointing experience as an American soldier in this era. He moves from the euphoric challenge of defending democracy to the realization of being “had.”

Billy Joel’s “We Didn’t Start the Fire” summarizes approximately 40 years of the Cold War. Students, using this as a model, will be stretched mentally as lyricists when they summarize their era of the nineties in verse.

The presentation will also include suggestions for enhancing additional units with the voices of other eras.
