It’s Not Just Story Time…It’s Learning Time!

Special Area: Preschool
Written by: Ebony (Nikki) Grant, Head of the Class Childcare & Learning Center, Monticello, AR

I. ABSTRACT
This presentation will focus on extending the use of storybooks throughout the curriculum. Activities and ideas will be provided that will help children meet the Core Knowledge goals of Storybook Reading and Storytelling. Children develop language skills through the process of being read to, and so it is important for teachers to create literacy opportunities in the classroom. As they grow, children will learn the concepts of listening and retelling stories. Books are used to enhance these skills, in addition to preparing children as they begin to read and write. This session will explore fun ways to integrate areas such as science, math, and art into story time.
